LASAI

LASAI is a collection of modular urban furniture based on thin tropical wood slats that provides for great versatility in terms of sets and ergonomics. It consists of a chaise-lounge and a bench, two planter models and a picnic table, which provide for a wide range of add-ons and combinations.

LASAI

ORIGEN

Lasai, the Basque word for “calm”, came about from the idea of creating a family of urban fixtures that invited to relaxation, the possibility of taking a break overlooking the sea, in a park, under a tree, and so on. It is based on a design that came out of the transformation of Barcelona’s Port Olímpic by the architects of Leku Studio.

MODULAR

The collection is composed of modules measuring 55 cm wide and 180 cm long, which can be put in a lengthwise or crosswise arrangement. It allows living areas to be created, such as large platforms or reclined seating, combined with vegetation with the two planter models.

MULTIPURPOSE

The different elements of the collection create the media for coexistence, with area for gathering and relaxing that foster a more casual and diverse manner of inhabiting the city’s public space.

MATERIAL

Support structures of 8 mm thick galvanized and mechanized steel plates. Paint finish with the RAL colour chart. The seating area and seat back are made of 40x35 mm FSC® certified tropical hardwood slats.

INSTALLATION

Anchoring with pavement-sunk bolt set into 12 mm holes pre-drilled into the pavement and filled with epoxy resin or heavy mortar. The planters do not require anchoring.

1. Modular bench

Lasai	Backless bench	Table	Chaise longue 1m	Chaise longue 1,8m
Dimensions	180 x 55 x 49 cm	180 x 72 x 75 cm	100 x 167,5 x 98 cm	180 x 167,5 x 98 cm
Weight	32 kg	43 kg	93 kg	133 kg

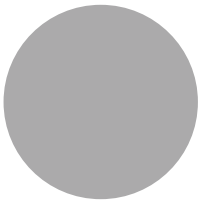

1.1 General features

Seat	Tropical wood FSC®	**Fixing**	Anchored with screws
Finish	Oil treated		
Supports	Zinc plated steel		
Finish	Coated finish. Category of atmospheric corrosivity C5 according to UNE EN ISO 12944-2.		

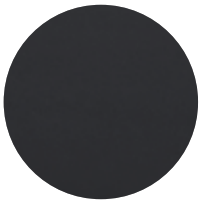

Colours

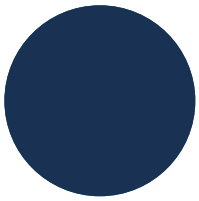

A. Tropical wood FSC®

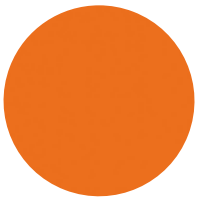

B. Textured Silver steel

C. Forge Black steel

D. Cobalt blue RAL 5013 steel

E. Bright Red Orange RAL 2008 steel

F. Traffic Yellow RAL 1023 steel

* Optional RAL colour coating, please consult

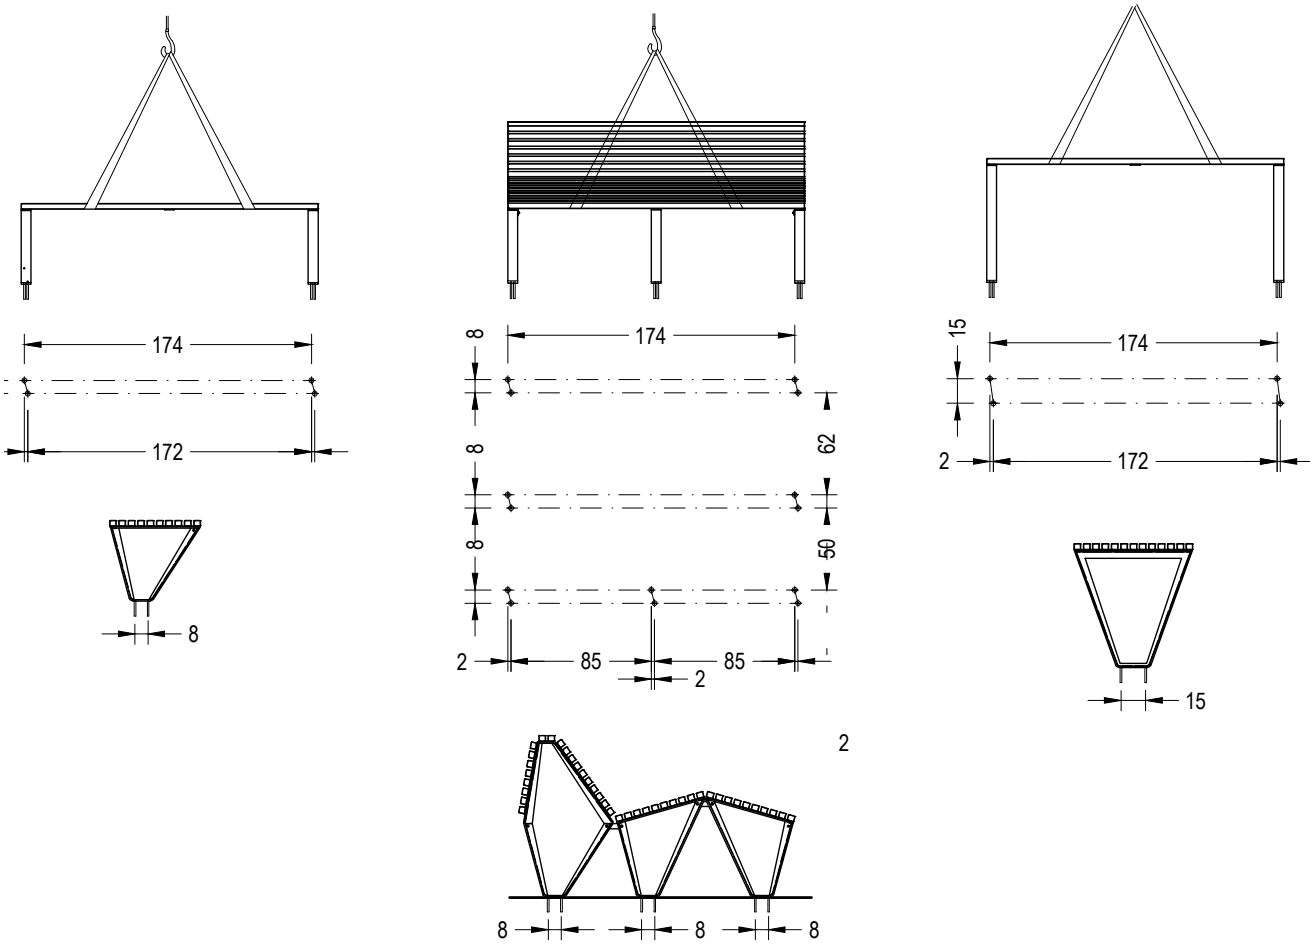

1.2 Installation system

Hoisting
W=32 kg / 43 kg / 93 kg / 133 kg

Installation
*The backless bench cannot be installed independently, it must always be installed as a complement to the chaise longue longue or with a backrest element.

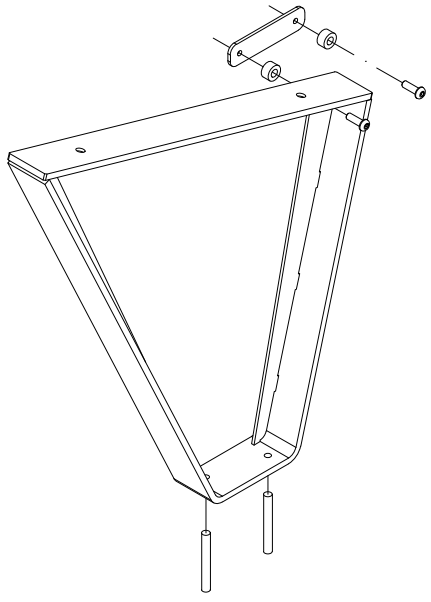

1. Floor anchoring

Place bench / table / backrest / chaise longue, mark drilling points. Screw in anchoring screws (DIN 913 M10 x 100 mm). Drill the floor (Ø12x150) and fill with resin or rich mortar. Centre and install.

2. Connecting parts

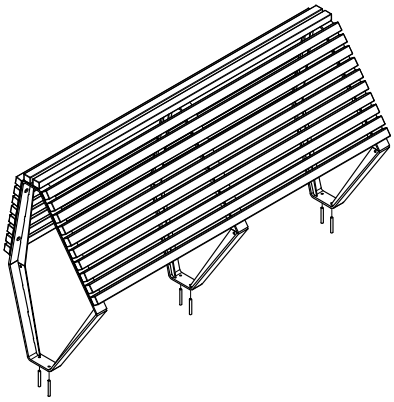

Place a screw (DIN 7380 M8 x 25 mm) through the hole in the bench support/Chaise Longue. Insert nylon washers through the inside of the support. Present the module connection plate and screw in the screws thoroughly.

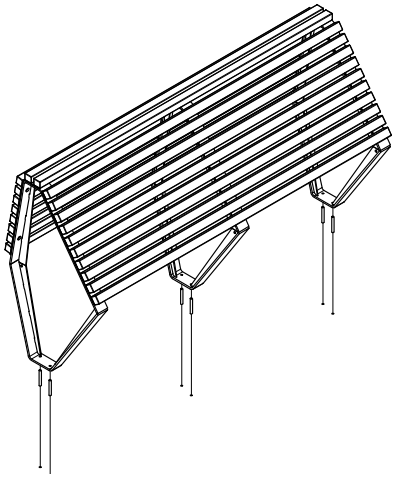

1.2 Installation system

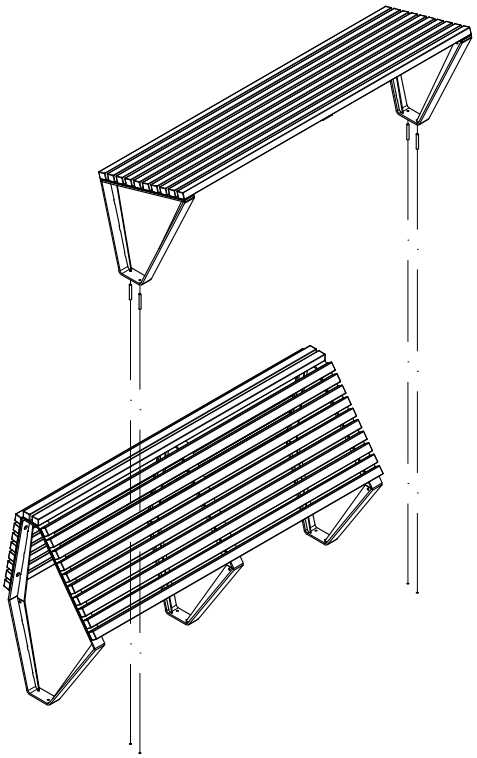

1. Position the backrest, mark the drilling points. Screw in the anchor screws (DIN 913 M10 x 100 mm).

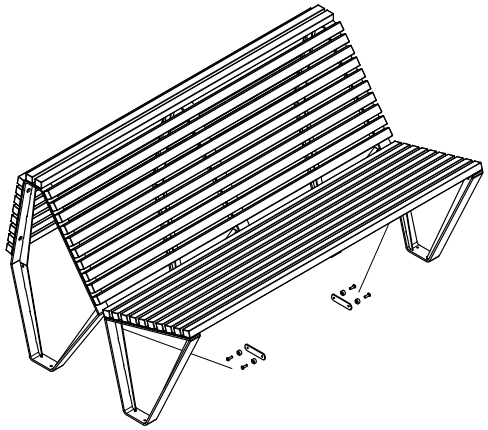

2. Drill the pavement (Ø12x150) and fill with resin or rich mortar. Centre and place.

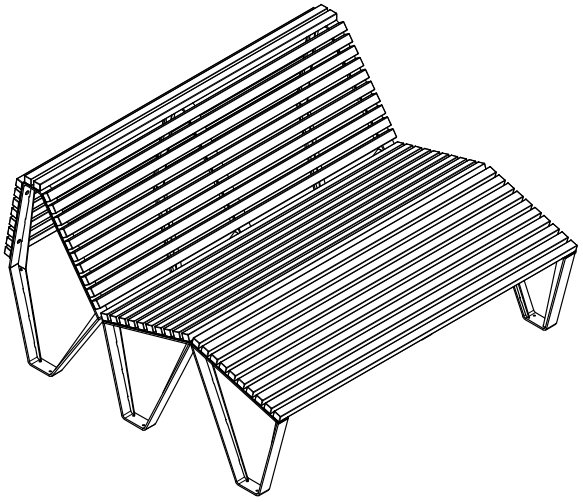

3. Present the connecting plate. Mark holes in the screed. Drill holes in pavement (Ø12x150) and fill with resin or rich mortar. Centre and place.

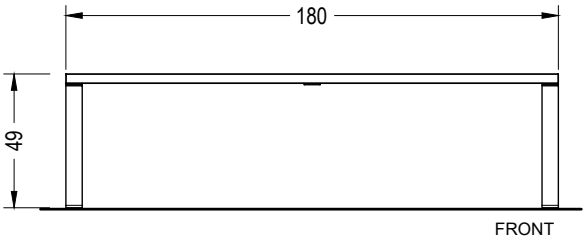

4. Thread the connecting plate together with the nylon washers between the parts (DIN 7380 M8 x 25mm).

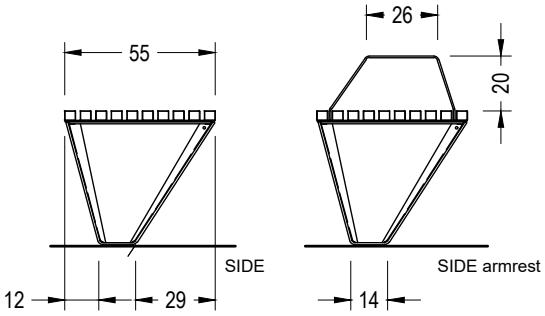

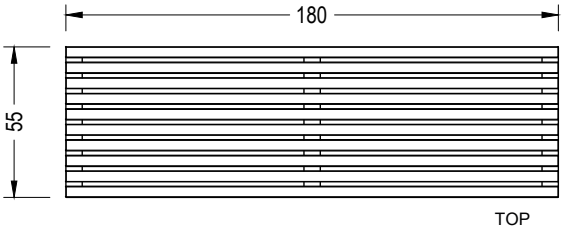

6. Repeat operations with all the elements and check the correct installation of the components.

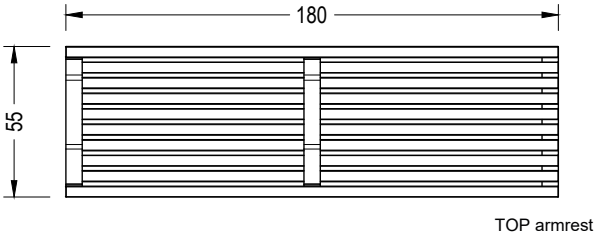

Backless bench component

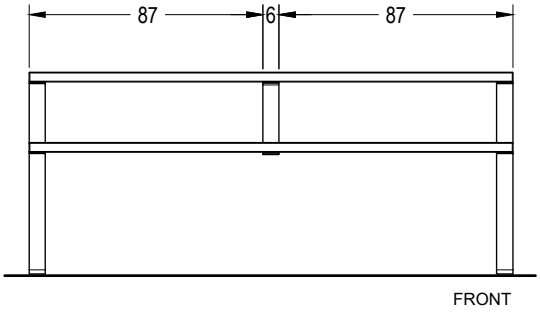

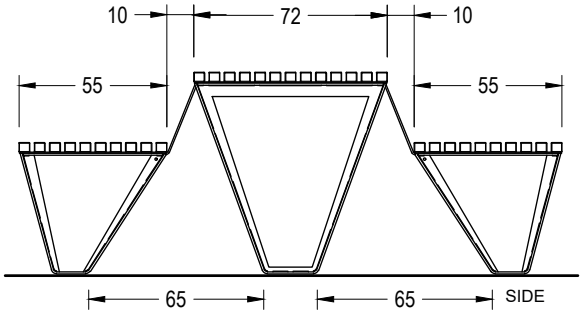

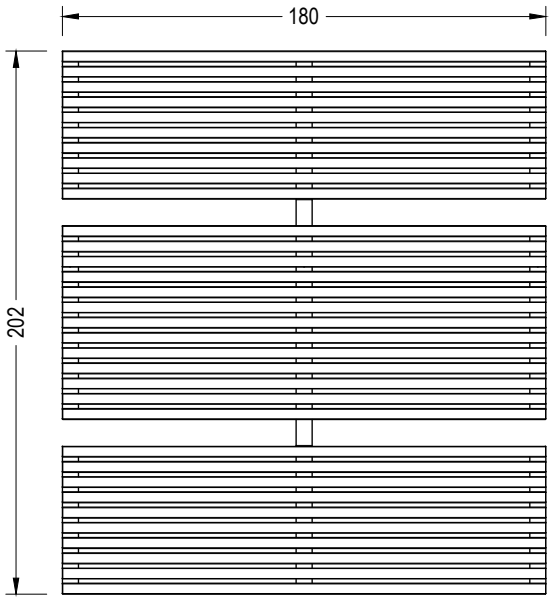

* Combinable module with chaise longue, bench or planter
* Central, right and left armrest kit available
